

## NEWS RELEASE

### SECURE ENERGY SERVICES INC. ANNOUNCES CLOSING OF THE ACQUISITION OF PREDATOR MIDSTREAM LTD.

CALGARY, ALBERTA August 15, 2014 – SECURE Energy Services Inc. (“Secure” or the “Corporation”) (TSX – SES) is pleased to announce that it has completed the previously announced acquisition of all of the assets of Predator Midstream Ltd. (“Predator”) for an aggregate purchase price of approximately \$107 million. The purchase price, after closing adjustments, was paid with \$65 million in cash and the issuance of 1,824,580 common shares of Secure valued at \$23.02 per share.

#### **About SECURE Energy Services Inc.**

SECURE is a TSX publicly traded energy services company that focuses on providing specialized services to upstream oil and natural gas companies.

The Corporation operates three divisions:

Processing, Recovery and Disposal Division (“PRD”): The PRD division owns and operates midstream infrastructure that provides processing, storing, shipping and marketing of crude oil, oilfield waste disposal and recycling. Specifically these services are clean oil terminalling and rail transloading, custom treating of crude oil, crude oil marketing, produced and waste water disposal, oilfield waste processing, landfill disposal, and oil purchase/resale service. Secure currently operates a network of facilities throughout western Canada and in North Dakota, providing these services at its full service terminals, landfills and stand-alone water disposal facilities.

Drilling Services Division (“DS”): The DS division provides equipment and chemicals for building, maintaining, processing and recycling of drilling and completion fluids. The drilling fluids service line comprises the majority of the revenue for the division which includes the design and implementation of drilling fluid systems for producers drilling for oil, bitumen and natural gas. The DS division focuses on providing products and systems that are designed for more complex wells, such as medium to deep wells, horizontal wells and horizontal wells drilled into the oil sands.

OnSite Division (“OS”): The operations of the OS division include environmental services which provide pre-drilling assessment planning, drilling waste management, remediation and reclamation assessment services, laboratory services, and “CleanSite” waste container services; integrated fluid solutions which include water management, recycling, pumping and storage solutions; and projects which include pipeline integrity (inspection, excavation, repair, replacement and rehabilitation); demolition and decommissioning and reclamation and remediation of former wellsites, facilities, commercial and industrial properties.
